

Wasat Mini Wall Up & Downlight

LMIW1243

Approximate dimensions

from  **LIGHTMASTER**
PRODUCT

The Wasat mini square wall up & downlight is ideal for residential spaces, typically used in entrance halls, landings, stairs, kitchens and bathrooms or any location requiring discreet but distinctive effect lighting.

The fitting material is mainly aluminium making it suitable for interior use only. Its small size allows versatility in positioning, which is critical to be able to create the accent, task or effect. To keep glare to a minimum, considerate positioning will graze, backlight or highlight the subject with its warm light colour, making this a flexible discreet lighting tool.

The white matt smooth surface finish helps this product to disappear into its surroundings. To ensure you get the best effect our lighting designers are on hand to advise.
