Depth	50mm
Cut-Out	Ø73mm

from  **LIGHTMASTER**  
PRODUCT

The Davic small fixed downlight is ideal for residential and commercial spaces, typically used in any location requiring a discreet and fire rated light fitting.

The fitting material is mainly steel making it suitable for interior use only. Its 90-minute fire rating allows use in a variety of residential applications, which is critical to be able to create the accent, task or effect. To keep glare to a minimum, considerate positioning will wash or highlight the subject with its warm light colour, making this a flexible discreet lighting tool.

The white matt sand textured surface finish helps this product to disappear into its surroundings. To ensure you get the best effect our lighting designers are on hand to advise.
