

Faltu Mini Adjustable 'Spiral' Spotlight LMIS2152

from  LIGHTMASTER
PRODUCT

The Faltu Spiral mini adjustable spotlight is ideal for residential and commercial spaces, typically used in entrance halls, landings, stairs, living rooms, kitchens, bathrooms or any location requiring a fitting of unique modern style.

The fitting material is mainly brass making it suitable for interior use only. Its small diameter mounting plate allows versatility in positioning, which is critical to be able to create the accent, task or effect. To keep glare to a minimum, considerate positioning will highlight the subject with its warm light colour, making this a flexible discreet lighting tool.

The range of surface finishes available help this product to disappear into its surroundings. To ensure you get the best effect our lighting designers are on hand to advise.
